OPERATING REVENUES

Gross revenues show a decrease of 0.4 per cent compared with previous year, and expenses show an increase of 0.1 per cent.

Passenger and freight revenue statistics appear in Statements Nos. 9 and 10 of this report.

FREIGHT REVENUE: 74.2 per cent of the total operating revenues, decreased \$21,101.93, or 0.6 per cent.

PASSENGER REVENUE: 12.6 per cent of the total operating revenues, decreased \$14,891.44, or 2.5 per cent.

OTHER REVENUE: Other transportation revenues increased...\$31,204.81, or 8.1 per cent.
Other operating revenues decreased......\$13,279.92, or 6.6 per cent.

NET INCOME: Increased 10.1% due principally to reduction in hire of freight cars of \$11,732 brought about by increased ownership of freight cars, and reduction in rent for passenger train cars of \$13,788 through equalization of passenger cars operated in through line service, and \$14,853 due to change in accounting for Pullman car rental.

Track

CROSS TIES:

There were 1,176 cross ties and 3 sets switch ties used in building new sidings and industrial tracks.

There were 20,739 cross ties used in the repairs to main tracks.

There were 4,599 cross ties and 27 sets of switch ties used in repairs to side tracks.

There were 26,514 cross ties used in new work and replacements at an average cost per tie of \$3.30. An average of 171 cross ties were used in maintenance per mile of maintained track.

BALLAST:

There were 5,178 cubic yards of crushed stone ballast used in maintenance and betterments of tracks, a decrease of 3,090 cubic yards as compared with previous year.

BRIDGES, TRESTLES AND CULVERTS:

No lumber was used in making repairs to trestles.

There are no timber trestles under the main track.

DEPOTS AND BUILDINGS:

2,454 feet board measure of lumber was used in the maintenance of depots and buildings.

MAINTENANCE OF EQUIPMENT

Maintenance of equipment expenses, 16.06 per cent of total operating revenues and 19.86 per cent of the total operating expenses increased \$58,630.13 or 8.7 per cent.

The average cost of repairs per Diesel locomotive, excluding depreciation and retirements, was \$17,089.41, an increase of \$3,092.30, or 22.1 per cent.

The average cost of repairs of Diesel locomotives per mile run, excluding depreciation and retirements, was 22.21 cents compared with 16.85 cents the preceding year, an increase of 31.8 per cent.

The cost of repairs per passenger train car, excluding depreciation and retirements, was \$3,195.04, an increase of \$103.97 or 3.4 per cent.

CONDITION OF EQUIPMENT:

The following repairs were made to equipment during the year, as compared with the preceding year:

TRAFFIC EXPENSES

Traffic expenses, 4.00 per cent of the total operating revenues and 4.94 per cent of the total operating expenses, decreased \$5,486.30, or 2.9 per cent.

TRANSPORTATION EXPENSES

Transportation expenses, 42.15 per cent of the total operating revenues and 52.12 per cent of the total operating expenses decreased \$35,626.42, or 1.8 per cent.

GENERAL EXPENSES

General expenses, 4.68 per cent of the total operating revenues and 5.79 per cent of the total operating expenses, decreased \$7,503.86, or 3.4 per cent.

ADDITIONS AND BETTERMENTS

The net changes in property account during the year, as reflected by Statement No. 6, were as follows:

Road, increased	48,581.05 340,270.09 .62
Net Increase	388.850.52

90 new all-steel box cars costing \$526,138 were received during the year. \$413,100 of this cost was financed by Conditional Sale Agreements.

Under the program begun in 1948 looking to eventual complete dieselization of your company there was purchased during the year 1952 one 1500 HP GP-7 general purpose diesel electric locomotive at a cost of \$154,675. The acquisition of this locomotive brings the A. & W. P. R. R. ownership of diesel power at the end of the year to the following:

- 2 Baldwin 1000 HP switching locomotives
- 1 Baldwin 1200 HP switching locomotive
- 4 General Motors Corporation (Electro-Motive Division) FP-7 1500 HP freight and passenger locomotives
- 5 General Motors Corporation (Electro-Motive Division) GP-7 general purpose 1500 HP locomotives

12

Approximately 92.5% of all regularly assigned freight service, 72.9% of all regularly assigned passenger service, and 68.4% of all switching service is now handled by diesel locomotives.

The 12 diesel units now on hand, total cost \$1,753,939, have been purchased under Conditional Sale Agreements, on which the balance unpaid at December 31, 1952, was \$958,000.

AGRICULTURAL AND INDUSTRIAL

Industrial expansion in the Southeast continued throughout the year. Five plants and warehouses were established, and two industries expanded to be served directly by this railroad.

Industrial production and consumer income were increased during the year, while crop values declined fourteen (14) per cent.

Compared with 1951, cotton lint and cotton seed declined twenty-three (23) per cent in value, while production was twenty-two (22) per cent less. The average yield per acre was 249 pounds compared with 317 pounds in 1951, and a ten year average of 236 pounds. Oil mills operated at an estimated sixty-five (65) per cent of capacity, and cotton mills processed more raw material than in the previous year. Only a very small proportion of the cotton produced in this section is shipped by rail. This condition has existed for quite a number of years with the exception of the war years when considerable cotton was shipped by rail.

Peach production in Georgia reached a total of 6,450 car loads with a thirteen (13) per cent decrease in value. Price per bushel was \$2.15 compared with \$2.30 per bushel in 1951. Of the crop produced in the territory served by this road, 86 car loads, or about fifty (50) per cent, were handled by this road.

Production and quality of livestock and poultry were comparable to the previous year, although there was a decline in total value. Farmers' auction sales were conducted throughout the year.

Cutting of trees for pulpwood accelerated, and was accompanied by increased planting of seedlings.

While farmers experienced an extremely difficult year due to prolonged drouth during most of the growing season, the yields of most food and feed crops were fair and at the end of the year the farm plant and equipment were in a satisfactory condition with respect to maintenance.

LABOR RELATIONS AND WAGES

The lengthy negotiations on wages and rules with Engineers, Firemen, and Conductors, pending nationally for the past three years, were concluded by the signing of agreements on May 23, 1952. The control of railroads by the United States Government, which had been in effect since August 27, 1950, was terminated on the same date.

These agreements call for the same wage increases as those granted by the May 25, 1951 agreement with Trainmen, namely, 12½¢ per hour in road service, and 27¢ per hour in yard service, plus quarterly cost-of-living adjustments of 1¢ per hour for each point by which Consumers' Price Index (old series) exceeded the base of 178. The agreement also provides for the establishment of a 5-day work week for Engineers and Firemen in yard service at their option, with an additional wage increase of 4¢ per hour upon conversion to a reduced work week. The rules adopted were practically the same as agreed to with the Trainmen and are of minor importance so far as the railroad is concerned.

Cost-of-living adjustments in wages of the operating and non-operating employees (the latter granted March 1, 1951); effective at various periods during 1951 and 1952, accumulated to a total of 14¢ per hour at the end of 1952. Effective January 1, 1953, the total was reduced 1¢ per hour.

In accordance with the agreements of March 1, 1951, with the non-operating employees, May 25, 1951 with the Trainmen, and May 23, 1952 with the Engineers, Firemen, and Conductors, the President of the United States, on December 1, 1952 appointed a Referee to consider a demand for improvement wage increases. The Referee ruled the Government wage stabilization policy permitted so-called annual improvement wage increases. Hearing to determine whether further wage increases were justified and what such increases should be commenced January 6, 1953 and on March 18, 1953, the Referee rendered an award of 4¢ per hour retroactive to December 1, 1952.

The property was adequately maintained during 1952, and its general condition at the close of the year compared favorably with that of the past years.

An examination of the accounts of the Company has been made by Messrs. Haskins & Sells, Certified Public Accountants, whose certificate appears in this report.

The Board takes pleasure in expressing its appreciation of the loyal and faithful services rendered by the Officials and Employees of the Company in the performance of their duties.

By order of the Board:

S. R. YOUNG

President and General Manager.

The following memorial was unanimously adopted by the Board of Directors of the Atlanta and West Point Rail Road Company at its meeting on October 13, 1952:

The President announced with deep regret the passing on September 10, 1952, of Mr. Fred E. Waters, a member of this Board since December 7, 1944.

Mr. Waters was born January 26, 1893, entered the service of this Company March 1920, as Roadway Accountant, later as Chief Clerk to the President and General Manager, and on November 11, 1940, was promoted to Comptroller which position he occupied until his voluntary retirement on August 15, 1952.

Whereupon, the following resolution was unanimously adopted:

RESOLVED, that the Directors of the Atlanta and West Point Rail Road Company record with deep regret the death of Mr. Fred E. Waters, and desire to express their high appreciation of his faithful and efficient services as a Director and as Comptroller of this Company. His loyalty to the Management and his fidelity to the Company's interests will always be remembered by his associates.

FURTHER RESOLVED, that this resolution be spread upon the Company's permanent records and that a copy be sent to his family.

ACCOUNTANTS' CERTIFICATE

Atlanta and West Point Rail Road Company:

We have examined the balance sheet of Atlanta and West Point Rail Road Company as of December 31, 1952 and the related statements of income and earned surplus-unappropriated for the year then ended, have reviewed the accounting procedures of the Company and have examined its accounting records and other evidence in support of such financial statements. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of income and earned surplus-unappropriated present fairly the financial position of the Company at December 31, 1952 and the results of its operations for the year then ended, in conformity with the accounting requirements prescribed by the Interstate Commerce Commission.

Income tax accruals reflect a benefit of approximately \$54,000 for 1952 and \$42,000 for 1951, resulting from deductions for amortization in excess of normal depreciation on emergency defense facilities. Under the accounting rules of the Interstate Commerce Commission, amortization of emergency facilities in excess of normal depreciation is not chargeable to income.
